PROFESSIONAL SUMMARY

Small business owner turned detail and team-oriented **Full Stack Software Developer**. Experienced in working within a fast-paced environment and creating scalable web applications using Python, Java, and JavaScript. Currently aspiring to contribute to a dynamic team that builds innovative products, constantly adapts to new technologies and strives to improve people's lives on a global scale.

WEB DEVELOPMENT PROJECTS

DOJO ECOMMERCE – An e-commerce website that allows customers to login and register, search for products, and track orders they placed. Features an admin site that can access all orders/products and upload images for new products. Built with Django and AJAX/jQuery.

EVENTS TRACKER – Full stack Java website that allows users to create events, track other events by state, and post comments on event pages. Built with Spring MVC and implements login/registration.

PROFESSIONAL EXPERIENCE

CODING DOJO – TEACHING ASSISTANT 09/18 – 11/18
Assisted aspiring web developers with their projects and assignments. Led algorithm and debugging sessions and encouraged teamwork and best programming practices across all cohorts.

CODING DOJO – CODING RESIDENT 05/18 – 09/18
Immersive full stack web development program. Graduated with over 1000 hours of coding experience and a working proficiency in HTML/CSS, Python, Java, MEAN, and numerous frameworks. Attained black belts (highest level of achievement) in all three stacks.

SUBWAY – FRANCHISEE 06/16 – 06/18
Increased catering sales by 15% and net sales by 10% by optimizing the customer experience. Responsible for recruiting and training new employees. Completed weekly inventory reports and updated staff on new technological updates and marketing practices from Subway HQ.

EDUCATION

UNIVERSITY OF VIRGINIA 08/12 – 05/16
Graduated with a B.A. in Cognitive Science with a concentration in Cognitive Psychology. **Honors:** Echol's Scholar, Fall '13 Dean's List
